WE LOVE COFFEE

Of course, tea is great, and so is freshly-squeezed juice, and there's nothing like a shot of alcohol to warm yourself up... but coffee will always be our one true love. Premium, aromatic coffee that stimulates the senses, served at just the right temperature, with the perfect consistency. Coffee you'll only get from us. **In other words, delicious coffee.**

Our coffee beans start their journey on three different continents: Africa, South America, and Asia.

Columbian Beans

Cultivated in rich volcanic soil up to 1,800 meters above sea level, these beans are truly of sky-high quality.

Indian Beans

These beans are grown close to spice plants like cardamom and cinnamon, giving the coffee a mild spicy flavor and pleasant aroma.

Ethiopian Beans

Grown in eastern Africa, these beans give our coffee a mildly fruity, floral fragrance.

Roasting the Coffee

We roast the coffee at 220°C for about 25 minutes – optimal conditions for the blend's exquisite combination of beans.

The Café Neto Blend

After countless months of trials and taste tests, we perfected our prized blend, bursting with the finest flavors, body, and aroma.

Our Baristas

All our baristas undergo special intensive training (which includes a bean sack race), to provide you with an exceptional beverage you'll savor down to the very last drop. Even when it's tea...

The Taste Test

Sharp, sophisticated senses will pick up on cedar, lemon, peach, caramel, almond, and roasted hazelnut, enhanced with the rich aromas of lush, wet earth, straw, apple, and sublimely roasted beans
